EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

A restriction was made in this application in Three (3) groups. Group I, claims 1-5, Group II, claims 6-10 and Group III, claims 11-12.

Applicant responded on March 15, 2004 by electing Group II, claims 6-10 without traverse. Since, applicant elected without traverse thus claims 1-5 and 11-12 have been cancelled.

Cancel claims 1-5 and 11-12.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the reference disclose alone or in combination using of layer of thermal oxide in an interferometer or in an arrayed waveguide structure grating along with an array of rib waveguide structures. The closest reference teaches a use of a layer of silicon nitride, which is not a thermal oxide layer. Thus, claims 6-10 is allowable over the prior art as of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
